MECHANICAL SPECIFICATIONS

Ad Specifications:

High resolution production CMYK PDFs are preferred. All images must be at least 300 dpi. Embed all fonts. Please use the ad size specified here at your page size in your design program. Crop marks are only necessary on full page bleed page files. Set your PDF settings to CMYK. Other formats accepted: 300 dpi TIFF or EPS, with fonts embedded & images linked.

Full-Page Bleed:

Bleed is only available for full-page ads. They are based on the trim size to 8.375" width and 10.875" height and add .125 of bleed around the entire page. Also set your margins for at least .375" around the page - the area inside the margin becomes your "live" area for type. Be sure to proportionally extend your graphics out to the bleed marks. When saving your PDF, set the page larger than the bleed area, select crop marks, and be sure you can see the crop marks on the final PDF.

Around Concord Ad Design:

Around Concord has an experienced designer who can help you out with the layout, look and feel of your ad. Location photography is available. Your concepts and ideas can be executed professionally. See your sales representative for information.
